

SKS AID OF FRANCE. Mediation in Mexico is Suggested. Miss Sylvia Enlists a Boer Hero. OUTWITS THE POLICE. Stratagem by Miss Sylvia.

Washington, Nov. 5.—(By A. P. Night Wire to the Times.)—The 10,000 or more Americans who were in Mexico prior to the beginning of the present diplomatic difficulties between the United States and that country, only about 5000 still remain within the boundaries of the revolution-torn republic, according to information reaching the State Department. About 1500 Americans remain in Mexico City, the remainder of the 10,000 being distributed among the towns of Torreon, Monterrey, Guaymas and Mazatlan. Since the warning issued by President Wilson in his last message to Congress relative to the Mexican situation no new instructions have been sent to the American legation in Mexico City. It is stated, however, that in the interval a few, who had left the country, have returned.

Run Order in Operation. Big Change in the Currency Bill. Unnoticed by Wilson. Owens Now Admits that Friends of the President Are "In the Air."

Washington, Nov. 5.—(By A. P. Night Wire to the Times.)—The 10,000 or more Americans who were in Mexico prior to the beginning of the present diplomatic difficulties between the United States and that country, only about 5000 still remain within the boundaries of the revolution-torn republic, according to information reaching the State Department. About 1500 Americans remain in Mexico City, the remainder of the 10,000 being distributed among the towns of Torreon, Monterrey, Guaymas and Mazatlan. Since the warning issued by President Wilson in his last message to Congress relative to the Mexican situation no new instructions have been sent to the American legation in Mexico City. It is stated, however, that in the interval a few, who had left the country, have returned.

Body Blow to the Administration Follows Heated Row in Committee. Executive Is Expected to Swing His Dumb-bell on the Recalcitrants.

Washington, Nov. 5.—(By A. P. Night Wire to the Times.)—An entirely new feature was tentatively written into the administration currency bill today by the Senate committee after a full day of heated wrangle. The new plan was characterized by Chairman Owen, chief administration supporter in the committee, as "equivalent to a central bank." He said the committee adjourned with the matter "up in the air."

RARE TREAT FOR THE LAW. Woman Appears as Sole Attorney in a Supreme Court Case.

Washington, Nov. 5.—In the Supreme Court of the United States today Mrs. Sarah H. Sorin of Arizona appeared as the sole representative of a mining corporation in a big mining suit. Only on a few occasions have women addressed the court, and then, in nearly every instance, only as associate counsel. Mrs. Sorin was defending the claim of the United Globe Mines, a corporation of which she is general counsel, to two mining claims in Gila county, Arizona. James H. Work also claims the mines. When the case was brought to the Supreme Court, Mrs. Sorin was associated with her father, William Herring, as counsel. Since then Mr. Herring died and Mrs. Sorin has fought the case to the end. The decision in the Supreme Court of Arizona was in her favor.

Miss Sylvia Enlists a Boer Hero. Outwits the Police. Stratagem by Miss Sylvia.

London, Nov. 5.—(By Cable and A. P. to the Times.)—By a clever stratagem, which hoodwinked the large force of police sent to prevent her from speaking, Miss Sylvia Pankhurst was enabled to announce tonight at the Bow Baths, in the East End of London, the formation of a volunteer corps, organized under command of Capt. Sir Francis Vane, a Boer war veteran, for the protection of militant suffragettes and labor unionists.

Proclaims a Volunteer Corps to Aid Militant Suffragettes. Veteran of the Boer War to Command the Brigade of Knout Men.

London, Nov. 5.—(By Cable and A. P. to the Times.)—By a clever stratagem, which hoodwinked the large force of police sent to prevent her from speaking, Miss Sylvia Pankhurst was enabled to announce tonight at the Bow Baths, in the East End of London, the formation of a volunteer corps, organized under command of Capt. Sir Francis Vane, a Boer war veteran, for the protection of militant suffragettes and labor unionists.

Where's "Cy"? Trust Issue. Mithenolds Hares It in Hall-Vester Case.

Portland, Me., Nov. 5.—(By A. P. Night Wire to the Times.)—Nina members of the crew of the Gloucester fishing schooner Annie M. Parker, which was picked up Monday with all sails set and her hold full of fish by the British steamer Astrakhan, sixty miles east of Nantucket, and which was towed to New Bedford by the revenue cutter Gretham, were brought before the district court today.

Two real militants. Sandwich as a Healer. Never Failed to Cure, English Earl Asserts.

London, Nov. 5.—(Exclusive Dispatch.)—The Earl of Sandwich has announced himself as the possessor of a remarkable psychic healing power, by which he says he has cured many mental and physical ailments, although he is without medical or surgical knowledge. The announcement was made by Sandwich at a meeting of the University College of London today to inaugurate a clinic for the psychopathic treatment of disease.

Bag of Jewels for Emmeline. Look Like a Lampshade. Then if Women Put on Turkish Veil They Will Remember Their Fair Sisters in Paris.

Chicago, Nov. 5.—(Exclusive Dispatch.)—The kaleidoscope changes in feminine attire are becoming bewildering. The Turkish veil is to be the chic thing in Paris during this fall, and Paris beauties will hide one-half their pretty faces behind it. The new veil is not confined to the face, it should be understood.

Black Cat in White House. President Wilson's Path is Crossed by Dusky Stranger Day After Election.

Washington, Nov. 5.—(Exclusive Dispatch.)—President Wilson has adopted a stray black cat. It wandered into the breakfast-room of the White House yesterday and jumped upon the President's lap. He fed it and decreed that, as long as it was satisfied with the White House, it could have a home there.

Editor Remorse. New York, Nov. 5.—(By A. P. Night Wire.)—The Rev. Dr. William Hayes Ward, aged 74, has resigned as editor of the Independent after serving in that capacity forty-five years. Dr. Ward will remain a contributing editor.

President's Daughter Sings. Miss Margaret Wilson Appears at Philadelphia Concert in Aid of Working Girls.

Philadelphia, Nov. 5.—(By A. P. Night Wire.)—Miss Margaret Wilson, daughter of President Wilson, sang here last night at a concert given by the Northern Liberties Aid Society, an organization of socially prominent women who are interested in the welfare of working girls, to obtain funds with which to build a home for the girls working in the factories of Kensington.

Washing, Drowning, and Cook Is Drowned. They drifted about all day and the following night, constantly buffeted by heavy seas, one of which carried Kenney, the cook, over the stern.

President's Daughter Sings. Miss Margaret Wilson Appears at Philadelphia Concert in Aid of Working Girls.

Philadelphia, Nov. 5.—(By A. P. Night Wire.)—Miss Margaret Wilson, daughter of President Wilson, sang here last night at a concert given by the Northern Liberties Aid Society, an organization of socially prominent women who are interested in the welfare of working girls, to obtain funds with which to build a home for the girls working in the factories of Kensington.

Washing, Drowning, and Cook Is Drowned. They drifted about all day and the following night, constantly buffeted by heavy seas, one of which carried Kenney, the cook, over the stern.

They drifted about all day and the following night, constantly buffeted by heavy seas, one of which carried Kenney, the cook, over the stern. The vessel was being wrecked and the crew were in danger.

# Biggest Piano Factory in the West Forced to Move

## Will in Consequence, Sell All Pianos on Hand at Lowest Prices Ever Quoted in Los Angeles

The new plant of the Johnston Organ & Piano Company, at Van Nuys, is ready for occupancy. It's moving time with us so that we may catch up with the thousands of dollars' worth of advance orders which we have on hand.

The pianos here in our present factory, however, we will not move. We're going to sell them to you directly at 700 Sichel St.

### Every Piano Must Go At Once, Regardless of Cost.

We will make it an object to you to pay cash for these pianos, but if you are unable to do that, bring \$50 and choose your instrument. If that is too much, bring \$20, or bring \$10 or bring \$5. Every piano in this factory sale has got to go at once. If you are unable to pay any more, simply pay the balance and take them away. Use them free for a couple of months. They must be sold at any price.

### Make This Test.

See the best piano to be bought elsewhere for \$450. At this factory-to-you sale they are only \$150. See the piano for which some of your friends have had to pay \$200 at other places, then come to the factory and find similar values here for only \$175. See the beauties reduced to \$125, \$150, \$200, \$250, and \$300 cases for \$100 less. There never was such a cutting down of prices on such uniformly good and most valuable pianos. Come now. You cannot buy a

poor piano in this factory that offers only good ones. The nation's very greatest names, the most exquisite makes, the very best that money, no matter how much, can buy, are placed within easy reach of every home. And not only are the prices reduced, but payments are as low as \$1.50 a week.

### Twelve More \$100 Theatros—Free.

The first twelve customers coming to the factory today and purchasing player pianos of any make, of any price, on any terms, will each receive a \$100 theatre, absolutely free. This wonderful new talking machine will reproduce any record, and is made in cabinet form. It is superior to any other \$100 talking machine on the market.

### How to Get to the Big Sale.

Take the car, northbound, on Spring st., marked "North Main St." Get off at Sichel St. (It's only a ten-minute ride.) Walk one block south to the big Murray M. Harris factory, which we now occupy. Come today. While the choice of pianos is at its greatest.

## JOHNSTON ORGAN AND PIANO MANUFACTURING COMPANY

Successors to Murray M. Harris Co. 700 SICHEL ST.

QUICKEST TIME TO CHICAGO—LOS ANGELES LIMITED DAILY. No change of car. Tourist and Standard Sleepers. Lowest Rates. C. A. Thurston, G.A. C&N.W.Ry. 605 S. Spring St.

## BULL MOOSERS HOLDING A WAKE

Only Corporal's Guard to Carry Out the Corps.

Candidates Wish They Had Run as Independents.

Would Have Done Better to Keep Off the Ticket.

(BY A. P. NIGHT WRITER TO THE TIMES.)  
WASHINGTON, Nov. 5.—Both Chairman Doremus of the Democratic Congressional Committee and Chairman Woods of the Republican Congressional Committee expressed satisfaction with the result of yesterday's elections.

"Massachusetts, New Jersey and Maryland voters," said Mr. Doremus, "have endorsed President Wilson's progressive policies, including tariff, currency and Mexico. The results indicate that manufacturing interests are not apprehensive of the tariff reduction."

"Many Republicans have been elected to public office, now held by Democrats," said Chairman Woods. "There has been a tremendous Republican gain and a tremendous Democratic loss compared to the last elections in the same districts. The Bull Moose party demonstrated that they have practically no strength at all; their candidates would have received probably more votes if they had simply been candidates on an independent ticket."

Progressive party headquarters made no statement. President Wilson made no official comment on the Democratic victories in New Jersey, Massachusetts, and Maryland, but told friends he was much encouraged because in all three States the tariff and currency were issues, and he felt the administration's policies had been upheld.

The President already had sent a telegram to Mr. Fielder, the victor in New Jersey, and dispatched messages today. To David I. Walsh, elected Governor in Massachusetts, he said: "My heartfelt congratulations. It was a splendid victory for you."

To Blair Lee, Democrat, elected United States Senator in Maryland, the President wired: "Congratulations and the party most warmly. The victory was complete."

The President took a great interest

in the various municipal elections and sent to his personal friend, Mayor Newton D. Baker, re-elected in Cleveland, the following message: "Please accept my warmest congratulations. It did us all good to hear of your victory."

### DISAVOWS WILSON.

Mayor-Elect Mitchell of New York Declares President Did Not Assist Him.  
NEW YORK, Nov. 5.—John Purroy Mitchell, Mayor-elect, said this afternoon that he could not be too emphatic in saying that the national administration had nothing to do with his election.

"While President Wilson has been friendly to me and I have no doubt that he is pleased with the result," he said, "neither he nor anybody connected with the administration took part in the city campaign. If the President had taken part in the campaign we would not have had the co-operation of the Republican party."

"Mr. Murphy is a good loser," he added, with a smile as he read a telegram of congratulation from the Tammany leader, Edward E. McCullough, the defeated Tammany candidate, has gone to Hot Springs, Va., for a rest, according to an announcement made by one of his campaign managers today.

"There will be another day," said Charles F. Murphy this afternoon at Tammany Hall.

"Are you going to resign?" he was asked.

"Who said so?" retorted the Tammany leader.

"Do you consider Tammany Hall destroyed?"

"It is still here," was his answer. "MAY BE JOB FOR MALONE."

(BY A. P. NIGHT WRITER TO THE TIMES.)  
WASHINGTON, Nov. 5.—White House officials stated today that a nomination soon would be made of the acceptance of the resignation of John Purroy Mitchell as Collector of the Port of New York, elected Mayor there on the Fusion ticket. Speculations over the selection of a new collector centered on Dudley Field Malone, third assistant Secretary of State and son-in-law of Senator O'Gorman.

### AGGREGATION OF CRANKS.

Pueblo Adopts a Charter Amendment to Assess Lots Regardless of Improvements.  
(BY A. P. NIGHT WRITER TO THE TIMES.)  
PUEBLO (Colo.) Nov. 5.—Pueblo, by a majority of about 500 at yesterday's election, adopted the single tax for municipal purposes. Under the charter amendment adopted, all the taxes for city expenses will be raised by the assessment of lots alone with regard to the value of improvements.

Automobile Fire Insurance needed after

### LATEST FROM PENNSYLVANIA.

Republican Victory in Philadelphia, a Slip at the Reform Mayor, Is More Complete Than Supposed.  
PHILADELPHIA, Nov. 5.—The victory of the regular Republican organization in Philadelphia over the fusion forces led by Mayor Blankenburg appeared more complete today as further returns were received.

The reform element, which had formed a combination with the Democrats to wrest control of City Council from the Republican organization, and also to capture four county offices, lost ground in nearly every ward. The Republicans not only won the county offices by more than 30,000 majority, but increased their membership in council.

Returns tonight indicate that Judge John J. Henderson was re-elected Superior Court judge. The other Superior Court judgeship, held between John W. Keppart, Republican, and Webster Grim, Democrat, Henderson is a Republican, but ran on the fusion ticket. Although the fight between Grim and Keppart is close, most of the returns still to come are from western counties, and as Keppart is a western man, the final figures are expected to increase his lead.

The proposed \$50,000,000 bond issue for road roads apparently was defeated.

### NEW JERSEY AFTERMATH.

Fielder's Plurality Thirtysix Thousand and the Democrats Control the State Legislature.  
(BY A. P. NIGHT WRITER TO THE TIMES.)  
TRENTON (N. J.) Nov. 5.—The returns from yesterday's elections in New Jersey, which were tabulated, indicate that James F. Fielder, Democrat, will receive a plurality of at least 12,000 over Edward C. Stokes, Republican, in the race for Governor.

The Democrats also gained control of both branches of the State Legislature. The State Senate will stand eleven Democrats to ten Republicans and the Assembly will be composed of thirty Democrats and twenty-four Republicans. This will insure a Democratic majority of thirteen on the Senate and a Democratic majority of twenty on the Assembly.

Fielder received pluralities in fifteen of the twenty-one counties, while Stokes secured pluralities in the six remaining counties. Everett C. Thompson, Progressive, is estimated to have polled upwards of 40,000 votes in the State.

Stokes wired Fielder today, congratulating him on his victory and wishing him a successful administration.

"The fact that it is not as conspicuously bad as Tammany does not give me any reason to make its continuance in power desirable."

(BY A. P. NIGHT WRITER TO THE TIMES.)  
LONDON, Nov. 5.—The morning papers congratulate the American people on the defeat of Tammany, which they consider gives hope of a new birth of democracy in America and a higher standard of civic responsibility. They think also that it is proof of renewed confidence in President Wilson's administration.

### THE MARYLAND FIGURES.

Practically Complete Returns Show Lee Was Elected Senator by Forty-two Thousand Plurality.  
(BY A. P. NIGHT WRITER TO THE TIMES.)  
BALTIMORE (Md.) Nov. 5.—Practically complete returns tonight from yesterday's election in Maryland indicate that Blair Lee, Democrat, was elected to the United States Senate by a plurality of 42,000. The pluralities of R. C. Harrington, Democrat, for Comptroller, and C. C. Mauger, Democrat, for clerk of the Court of Appeals, probably will exceed \$5,000. The Progressive vote fell off heavily. In Baltimore, it was less than 1 per cent of the vote cast for Roosevelt last year.

### RAILWAYS FALL BEHIND.

One Hundred and Twenty-five Roads Show Big Decrease in Net Revenue for Three Months.  
(BY A. P. NIGHT WRITER TO THE TIMES.)  
WASHINGTON, Nov. 5.—Net revenue per mile of railroads throughout the United States during July, August and September were \$98 less this year than in the same months last year, according to figures produced by the Interstate Commerce Commission. Last year these revenues amounted to \$124 a mile, whereas this year they were only \$112.

The loss was most conspicuous in the eastern district, where the decrease in the three months was from \$124 to \$118, a decrease of \$25 a mile. The roads in the western district showed a loss of \$42. In the southern district there was a slight gain, an advance of \$3 per mile in net revenue being noted.

### GEORGIA ELECTION.

ALBANY (Ga.) Nov. 5.—Returns early tonight indicated that Frank Parks of Sylvester, Ga., had been elected Representative for the second district to complete the unexpired term of the late Representative E. A. Roddenberry. Returns from eight counties in the district gave Judge Parks a lead over Roscoe Lake of 160 votes. A. Covington is the third candidate. All are Democrats.

### HERE'S GLENN'S CHANCE.

Hennessy Asks the Governor to Dig the Deep Grave for the Tammany Hall Chief.  
(BY A. P. NIGHT WRITER TO THE TIMES.)  
ALBANY (N. Y.) Nov. 5.—Fresh from the New York Mayor's fight, John A. Hennessy, State Investigator, visited Albany today and made arrangements with Gov. Glenn for a renewal of investigations into Hennessy's charges of graft in various State departments.

Hennessy will present on Monday all the evidence he has in relation to graft and suggest new ways of ferreting out the corruption he charges. The Governor promised he would see that any criminal charges Hennessy could substantiate would be prosecuted.

### SOCIALISTS EAT SNOW.

Minnesota Towns Put Them Out of Doors Just at the Onset of a Hard Winter.  
(BY A. P. NIGHT WRITER TO THE TIMES.)  
DULUTH (Minn.) Nov. 5.—Reports received here today showed that Crookston voted "wet" in yesterday's election and that the Socialist regime had been defeated. Crookston voted "dry" and Thiel Fells voted for high license. In the latter place the Socialists met overwhelming defeat.

### CINCINNATI RIGHT AGAIN.

PAIGE SECURELY WIDEN.  
BOSTON, Nov. 5.—[By A. P. Night Wire.] Complete official returns from yesterday's election in Cincinnati give Judge Frederick S. Spiegel, Republican, for Mayor, a plurality of 11,112 over Henry F. Haug, who now occupies the office.

### MINNEAPOLIS TOWNS PUT THEM OUT OF DOORS JUST AT THE ONSET OF A HARD WINTER.

(BY A. P. NIGHT WRITER TO THE TIMES.)  
DULUTH (Minn.) Nov. 5.—Reports received here today showed that Crookston voted "wet" in yesterday's election and that the Socialist regime had been defeated. Crookston voted "dry" and Thiel Fells voted for high license. In the latter place the Socialists met overwhelming defeat.

### SOME DRYNESS IN OREGON.

Eleven Towns Beat Out the Wet and Several Decide to Permit Saloons.  
(BY A. P. NIGHT WRITER TO THE TIMES.)  
PORTLAND (Or.) Nov. 5.—Eleven towns in Oregon, where liquor is now sold yesterday to prohibit its sale hereafter. Two towns which were "wet" voted to remain "wet."

Among the towns declaring for prohibition were Salem, the capital and largest town in Oregon, other than Portland, and Oregon City, also a large town. The prohibitionists claim considerable gains in the result as a whole and already are discussing plans for a State-wide "dry" campaign next year.

### SEEKS LESSON FOR CHICAGO.

The Tribune Declares Solid Opposition Which Defeated Tammany Should Be Adopted in Windy City.  
(BY A. P. NIGHT WRITER TO THE TIMES.)  
CHICAGO BUREAU OF THE TIMES, Nov. 5.—[Exclusive Dispatch.] The Chicago Tribune has the following editorial on the result of the New York election.

"Charles Murphy and the Tammany organization were beaten in New York months ago when their opponents resolved to put one ticket and only one against the Tammany candidates."

"If there had been a Republican candidate, a Progressive candidate, and, possibly, an independent Democratic candidate, the result would have been different."

"Murphy was defeated as soon as his opponents eliminated the national parties from consideration and took back the only issue that concerned New York."

"The stroke which punished Tammany for unprincipled and insubstantial support of the Governor was the master mistake of a clever mind. Citizens who had an sympathy for the Governor were aroused by the spectacle of his disgrace and knew that his punishment was not ordered because he deserved it, but because he had done injury to an infamous organization."

"Tammany, a centralized and codified organization met a centralized and solidified opposition. There is a chance to turn out a bad government when such is the plan of campaign."

"Chicago ought to sit down and study the New York election. If the municipal organization is to meet several candidates, it should be supported in foolish partisanship, the local municipal organization will continue to be a failure."

"The fact that it is not as conspicuously bad as Tammany does not give me any reason to make its continuance in power desirable."

### WORSE THAN SEATTLE.

About All That the People of Boston Are Doing These Days Is to Talk and Vote.  
(BY A. P. NIGHT WRITER TO THE TIMES.)  
BOSTON, Nov. 5.—This city plunged into an exciting municipal campaign today only a few hours after the State election was decided. The nomination of seven candidates for Mayor—Congressmen James M. Cury and Andrew J. Peters, former Congressman John A. Kelley, John E. Murphy, Thomas J. Kenney, Ernest Smith and Mayor John F. Fitzgerald—was announced.

Whether Mayor Fitzgerald will enter the contest is not known.

Under the new city charter no political designation appears on the ballot against the name of any candidate.

### SAYS PRESSURE WAS APPLIED.

Principal of San Francisco School Complain to Mayor About Candidate for Supervisor.  
(BY A. P. NIGHT WRITER TO THE TIMES.)  
SAN FRANCISCO, Nov. 5.—Miss Anna Coughwell, principal of the Irving Scott grammar school, complained to Mayor James Rolph, Jr., today, that James E. Power, a member of the School Board, and candidate for Supervisor at the election to be held next Tuesday, had called her into his office yesterday and upbraided her because she had not supported his candidacy.

"I cannot understand your attitude when I voted for you as principal of the Irving Scott school," she quoted Power as saying to her.

Power did not deny calling Coughwell into his office and talking to her on campaign matters, but he said he had not intended it in any way as a reprimand.

### HERE'S GLENN'S CHANCE.

## California's "Lark Ellen" Sings.

TUNES SONG TO  
WATERS' FLOW.Ellen Beach Yaw Thrills With  
Own Composition.Responds to Encore With  
Note of the Skylark.Adds Verse to Honor Open-  
ing of the Aqueduct.

Singing a song of her own composition—"California, Hail the Waters!"—the last verse of which was written in honor of the aqueduct celebration, Ellen Beach Yaw thrilled the great concourse at the jubilee yesterday.

The wonderful comedienne, who was introduced by Gen. Harrison Gray Otis, charmed into silence the vast assemblage and sang the people with the perfect rendition of her patriotic composition. She sang at a dissonance against a breeze that swept across the platform, but nevertheless her wonderful, perfect notes reached far beyond the crowd and the breeze carried them on up over the course of the aqueduct to the people who lined the waterway.

Introducing Miss Yaw, Gen. Otis said:

"Mr. Chairman and fellow-citizens: In this vast concourse of happy and joyous people, met here with the object of celebrating a great public event—the successful completion of a mighty industrial project—there is a California woman of grace, culture and achievement: one who is a recognized queen in the high Kingdom of Song. She has won wide fame not alone in her own country, America, but likewise beyond the seas, until the very air of two continents has been rendered tremulous with praises of her matchless voice and of her honored name. She is of us Californians who are here today, and we proudly claim her as our own."

"She has graciously come here at the invitation of your committee to sing for you on this felicitous occasion. Standing here in this unique spot, beneath these benignant California skies, she will sing her own song of 'California' and of this magic moment of the blessed waters which we are here to welcome. I now have the honor and the distinct pleasure to present Miss Ellen Beach Yaw." [Applause.]

"California, Hail the Waters!" was accompanied by Porter's Catalina Island Band, directed by W. E. Arnold.

The first two verses had been sung by Miss Yaw on previous occasions, but during the week she composed the final verse and chorus in honor of the aqueduct. "The appropriateness of the verse caused the enthusiasm of the audience and Miss Yaw responded to demands for an encore with a rendition of "The Skylark," of her own composition. In this number she displayed the range of a wonderful voice and her graciousness will long be remembered as one of the features of the celebration.

The rest of the musical programme was composed of selections by the Catalina Band, which entertained the gathering crowds for hours before the official party arrived at the speakers' stand.

For San Francisco.

Mayor Rolph of San Francisco could not be at the aqueduct celebration, but he was represented by Charles A. Murdock to act as the official representative of the northern city. Murdock brought with him the congratulations of the city and the representatives of the chair reserved for Mayor Rolph in the speakers' stand at the celebration.

Libraries Closed Today.

The public libraries of the city will be closed to the public today when the celebration of the opening of the aqueduct will be observed. The library board decided to close all libraries in keeping with many other city institutions that will suspend business for the day.

Ellen Beach Yaw charming the multitude.

The sweet singer was presented by Gen. Harrison Gray Otis, who is seated in the foreground.

CALIFORNIA—  
HAIL THE WATERS!

BY ELLEN BEACH YAW.

California! Glorious land!  
What mystery dost thou hold?  
Thy name through the universe  
Is writ in shining gold.  
The eyes of every nation  
Are turned toward thee now,  
For God has placed with gracious hand  
A wreath upon thy brow.

CHORUS:  
California! California!  
Earth's own charmed land—  
Thy name through all eternity  
Is writ in shining gold.  
Wonderous land of sunshine  
That draws men unto thee,  
And holds them with a magic bond  
In perfect unity!  
Here is found a haven bright  
Where sun and flowers combine  
To drive away all worldly care  
And teach a love divine.

Lift your voice in gratitude,  
A river now is here,  
Whose bounteous waters, flowing free,  
A Paradise will rear.  
Here within this land of love  
Shall peace forever reign,  
For God has sent us waters pure,  
That Eden we regain.

CHORUS:  
Hail the waters! Glorious waters!  
Heaven has blessed our land,  
Abundant waters now are here,  
Sent forth by God's own hand.

PARADE THIS MORNING  
TO BE MILES LONG.Military, Civic and Industrial Procession as the Tribute  
of Thousands to Great Works Done, the Los Angeles  
Aqueduct and Exposition Park—Government to Be  
Represented by Naval Officers and Men.

AFTER WEEKS of planning the details have been arranged for the mammoth aqueduct and Exposition Park parade this morning, and celebration promises to fully justify the labor, money and time expended. At 9:50 o'clock an aerial bomb will be discharged, and at 10 o'clock sharp the vast procession, representing the tribute of thousands to the completion of a gigantic undertaking, will get under way. It is expected to be miles long.

The order of formation follows: grand marshal, J. J. Jenkins; aides, Chief of Police Sebastian, mounted police, Catalina Island band, battalion of police, mounted police, city officials and invited guests. Gen. Wankowski and staff, Col. Schreiber and staff, Seventh Regiment band, first battalion, Seventh Infantry, N.G.C., Hospital Corps, Redondo Beach band, United States sailors and marines, two divisions Naval Militia, Field Hospital No. 1, Battery A, Field Artillery, Troop D, unattached, Moore's military band, Urban Military Academy, California Military Academy, Hangtown Blues Band, J. P. Kerner, practice schooner, fire department, All-American band, water department, industrial division.

Under the direction of Grand Marshal Jenkins, Chief Aides Lannhausen and Division Marshals Sebastian, Wankowski, Elay, Cornish and Schreiber, the procession will move over the following route: East on Temple to Spring street, south on Spring to First, west on First to Broadway, south on Broadway to Ninth, west on Ninth to Grand ave-

nue, south on Grand avenue to Washington street.

The police and military divisions will proceed south on Grand avenue to Jefferson, west on Jefferson to University avenue, and south on University avenue to the Exposition Park grounds. The fire and water department divisions will move west on Washington to Hope, north on Hope, and disband. The industrial division will move east on Washington to Hill, north on Hill to Pico, and disband.

One of the features of the parade will be the participation of 100 sailors and marines from the United States cruiser South Dakota, Capt. Plunkett, detailed to extend the government's congratulations on the completion of the aqueduct. Immediately after the parade, these officers and men will be given a luncheon.

Beside the various organizations taking part all the leading manufacturing and industrial interests in the city will be represented and thousands of dollars worth of products will be displayed on attractive floats. Much street is to be laid upon this feature, as the Chamber of Commerce aims to show that Los Angeles is a busy industrial center as well as a mecca for tourists.

Torrence will present a striking exhibit. It will have six novel floats symbolizing his varied industries. Each of its features will be shown in miniature, and among its unique contributions will be shown a huge automobile fire, a shoe twelve feet high, a boat twelve feet high and an oil derrick, with full tool equipment.

The plan of division formation is:

DIVISION A.  
C. E. Sebastian, Marshal.  
This division will form on New

Glimps  
...atively estimated the

Big Work Forty Thousand Persons Participate in Jubilee at Mouth of the Aqueduct.

THE MULTITUDE.  
GREAT CROWD HANDLED WITHOUT SINGLE HITCH.

Trains Carry Ten Thousand to the Cascades; Motor-Driven Vehicles Nearly Three Times as Many. Harniss and Shank's Mares the Rest—Busy, Credited for the Automobile Club.

THOUSAND persons assembled at the Cascades yesterday for the jubilee marking the completion of the aqueduct. Of this number, 10,000 came by automobiles, 10,000 by motorcycles, 10,000 by wagons, and 10,000 by trains. The remainder, 10,000, were on foot.

Immediately following the program at the Cascades station and as fast as the cars could be sent out, in this way, and by relaying equipment from San Fernando, the last of the Southern Pacific's 10,000 reached here shortly after 5 o'clock last evening.

Most of the automobiles and motorcycles, determined to see the entire program, had parked their machines in the two parking stations at the Cascades long before the hour set for the arrival of Mulholland, and those who have made the aqueduct possible.

It was well they did, for at 11 o'clock exactly, the long official cavalcade of forty automobiles from this city swung across the Southern Pacific track and to the special parking station overlooking the speakers' stand.

OFFICIAL PARTY. Assembling at the Chamber of Commerce at 9:50 o'clock, the cars carrying the notables, speakers, and others swung north to the Broadway tunnel at sharp 10 o'clock on the two-hour run to the Cascades. In front was a police scout car, in command of Secretary Davison of the Aqueduct Celebration Commission.

Then followed six cars carrying the notables of the occasion, including Chief Engineer Mulholland, Chief Electrical Engineer Lippincott, Chief Construction Engineer McKay, ex-Gov. Pardee, former Secretary of the Treasury, Capt. Gen. Harrison Gray Oakes, Miss Ellen Beach Yaw, Lieut. Gen. Chaffee, Mayor Rose, former Mayor Alexander, President Del Valle of the Board of Public Service Commission, President Kinney and Secretary Wiggins of the Chamber of Commerce, President Radford of the Celebration Commission, Congressman Stephens, members of the City Council and of the Board of Public Service Commission.

The following cars carried, among others: Capt. G. P. Plunkett of the South Dakota, Capt. Louis Chapelle, Lieut. Com. Baldwin, Mayor J. N. Lublin of Lone Pine, Supervisor N. R. Ford of Inyo county, the engineer W. F. McClure, Mayor C. P. Dorland of Monrovia, Mayor Joseph Saylor of Oxnard, Lieut. Cullin, Peter-son and Green and Executive Officer Ford of Capt. Plunkett's staff, and J. K. Murdock, representing Mayor Ralph of San Francisco.

Through Tropic and Murbank the left here at 10 o'clock in the morning in forty automobiles.

Four special trains, making two trips each, the first leaving here at 8:45 a.m., were provided by the Southern Pacific. In all, fifty-four roomy coaches were used and there was no crowding, no delays. Asst. Supt. Bowles handled the Los Angeles end of the arrangement, while General Passenger Agent Batture looked after things at the station, only a half-mile from the Cascades.

Immediately following the program at the Cascades station and as fast as the cars could be sent out, in this way, and by relaying equipment from San Fernando, the last of the Southern Pacific's 10,000 reached here shortly after 5 o'clock last evening.

Most of the automobiles and motorcycles, determined to see the entire program, had parked their machines in the two parking stations at the Cascades long before the hour set for the arrival of Mulholland, and those who have made the aqueduct possible.

As they looked yesterday.

Job Harniss, Sam T. Clover and Engineer Plunkett, who fought against the great aqueduct enterprise, declaring the water was unfit for use, the system wrong and that the water would never get here. This is how they sized up in yesterday's celebration.

gally-decorated cars rolled, while automobile horns honked greetings and cheers arose from many throats. Swinging into San Fernando, the procession of official automobiles stopped on elaborately-decorated brand boulevard, while the most car-swarming ahead to the Cascades to announce the coming of the official party.

On its return the procession began to the hundreds of hundreds, which swelled to thousands, as the cars arrived at the special parking station and the notables took their way on foot to the speakers' stand, while a salute was thundered from the battery on the hillside.

THIRSTY CROWD. Expectations were unaltered in one lone instance connected with the celebration—it was not a hungry crowd. It was a thirsty crowd, as the consumption of great tubs of lemonade and thousands of bottles of soda attested; it was also an eager crowd, as the sale of many pennants and many souvenir books of the aqueduct showed. But as for eating—all had apparently eaten beforehand, and that sufficiently.

The women of the Presbyterian and Methodist churches of San Fernando had booths on the grounds—there were also private booths flanking the San Fernando road—but though sandwiches and frankfurters had a more or less ready sale, the sales were not, in the aggregate, commensurate with the size of the gathering.

What obvious eating there was seemed to be following the main show and was along the roadside, where mayhap some dainty lady, loitering back in her automobile, nibbled at a sandwich, or a woman of too, too bold flesh, surrounded by her bold, opened a capacious hamper, more, it seemed, to appease the craving of the youngsters than herself.

As if in full accord with the magnitude, the rich significance of the celebration, the crowd was an eager, but an orderly one. They crowded, 10,000 or more, along the Cascades road, but they were orderly, and they watched the water in its leap-land, tumbling course down into the valley, while other ten thousands rushed to the hillside to see the coming of the water. All were eager, but courteous; allied to the full with appreciation that they were looking on history-making events.

TO LOS ANGELES.  
PRESIDENT WILSON WIRES AQUEDUCT FELICITATIONS.

THROUGH his secretary, Joseph P. Tumulty, President Wilson yesterday wired his congratulations to Los Angeles on the accomplishment of the great aqueduct. His further request that Senator Works be considered his official representative on the occasion. This reply was received to the following telegram sent to the President by the Aqueduct Memorial Fountain Committee:

"Honorable Woodrow Wilson, President of the United States, White House.

"Mr. President: On November 5 and 6, the citizens of Los Angeles will celebrate the completion of the Los Angeles aqueduct.

"We believe that you will agree with us that this achievement is a tribute to the nation, as well as to the State of California, and we, therefore, invite you to be present at the laying of the corner-stone for the memorial fountain to be erected in commemoration of this great engineering feat.

"However, in the event that it is impossible for you to be present, we would very much appreciate it if you would kindly authorize Senator John D. Works to represent you on this occasion.

Respectfully,  
[Signed] MARTIN C. NEUNER,  
Chairman, Aqueduct Memorial Fountain Committee.

To Mr. Neuner the following telegram was sent by direction of the President:

"THE WHITE HOUSE,  
Washington (D. C.) Nov. 5, 1913.

"Chairman, Aqueduct Memorial Fountain Committee,  
Los Angeles, Cal.

"Telegram received. The President has requested Senator Works to represent him on the occasion of the completion of the Los Angeles aqueduct.

[Signed] "JOSEPH P. TUMULTY," Secretary.

Sensor Works received the following dispatch:

"THE WHITE HOUSE,  
Washington (D. C.) Nov. 5, 1913.

"Hon. John D. Works,  
Los Angeles, Cal.

"The President directs me to say that he would be very glad to have you represent him at the corner-stone laying of the Los Angeles Aqueduct Memorial Fountain. He desires to express his heartiest congratulations to you on the completion of the important engineering achievement.

[Signed] "JOSEPH P. TUMULTY."

CROWNED MONARCH.  
TO KING WATER, WHOSE SCEPTER MAKES MIGHTY.

FIRST ON the list of speakers at the aqueduct celebration yesterday, Congressman Stephens spoke in full as follows:

Fellow-citizens: We are gathered here today to celebrate the coming of a king—for water in Southern California is king in fact, if not in name. This great king has come from afar to serve for all time, the loyal subjects of our beautiful queen—the City of the Angels. The wild waters of the mountain heights are at our feet, ready and willing to do most loyal service in the upbuilding of a greater city and county.

Soon after the idea of bringing water from the Owens River Valley, 250 miles to Los Angeles, was given to the public, I was made one of a committee appointed by our great Chamber of Commerce to investigate and report upon the feasibility and advisability of the proposed plan. Careful investigation was made and the committee unanimously reported in favor of the project. The chamber, after most careful consideration of the committee's report, adopted and made it its own, and from that time on the Los Angeles Chamber of Commerce has advocated with its utmost strength the building of our great Los Angeles aqueduct.

the building of the aqueduct an election was held to authorize it. I had the honor of being president of the Chamber of Commerce at that time, and as such had much to do with the ensuing campaign. The Chamber of Commerce felt no stone unturned to carry that election for it believed that the bringing of a great supply of water was vital to the continued growth and prosperity of Los Angeles.

The election was carried by a vote of ten to one in favor of the bond issue, and now—after a little more than six years afterwards—it is a great honor to stand before you as a part of the official welcome of Los Angeles to these life-giving waters.

There have been great difficulties encountered, but owing to the capability and energy of those directly in charge of the great work, every obstacle has been surmounted, and to the public, I was made one of a committee appointed by our great Chamber of Commerce to investigate and report upon the feasibility and advisability of the proposed plan. Careful investigation was made and the committee unanimously reported in favor of the project. The chamber, after most careful consideration of the committee's report, adopted and made it its own, and from that time on the Los Angeles Chamber of Commerce has advocated with its utmost strength the building of our great Los Angeles aqueduct.

Because of the coming of this great flood of water, (250,000,000 gallons daily) the future of Los Angeles is made secure. In twenty years the electric power furnished the city by this great flow of waters will pay the entire cost, principal and interest, of the aqueduct and the necessary power lines. The water before us will, in a few years, blossom and bear fruit in every part. From where we stand even unto the sea at the boundary lines of the county, every acre of land has a sure promise of sufficient water for agricultural and domestic use. In a few years this great San Fernando Valley will have within its confines a hundred thousand people, and the city of Los Angeles will, perhaps, include all of the territory from here to the sea, at Santa Monica and San Pedro, and within and round about our beloved city there will be more than 2,000,000 people.

THEY DON'T SEE IT.

No Small Boy Craves Fame at the Price of Being First to Tumble into the Aqueduct.

No boy could be found in San Fernando yesterday who was willing to spring into eternal fame and into the aqueduct at the same time.

Hundreds of boys raced down the incline, following the first waters through the gates, but none of them could see the point when it was suggested that the first boy to fall into the aqueduct waters was sure to become famous.

One boy offered to do it for a consideration, but later changed his mind when he noted the swiftness of the flood and considered over where it might take him. So the honor is still open for the first intrepid youth that wants to "do something first."

WHAT INTERESTS MONROVIA. MONROVIA, Nov. 5.—Under the leadership of their instructor, Prof. C. N. Carter, fifteen Pasadena High School students, motored from the Crown City recently and made an investigation of modern methods in orange fumigation on the ranches in the Duarte community. Carter is instructor in agriculture and horticulture at the Pasadena school.

The increased civil engineering work of the city has caused the Board of Trustees to pass a resolution re-employing Henry B. Gierlich, City Engineer, at an increased salary. Hereafter, Gierlich will give all his time to the engineering work of the city. Before this arrangement was made, he was employed as City Engineer of Assam, and did some private work in addition.

The City Trustees have decided to insist on definite action by the Pacific Electric Railway in the matter of leveling the tracks on Olive avenue. The present condition of the tracks, several lines above the street level, are believed by the Trustees, to constitute a public nuisance.

CITY'S ACHIEVEMENT  
(Continued from Fourth Page.)

trial energy by building power plants where the steep drops are. As the thousands of people traversed the beautiful San Fernando Valley, going to and from the celebration, they were all profoundly impressed with the possibilities of that region under the beneficent influence of the life-giving water about to be diverted to it.

They recalled the prophecy of Engineer Lippincott that within five years all that valley and the other districts to be served with water would be as densely populated as Pasadena and Hollywood now are, and they believed it. The coming of the water and its distribution means, not only that the city of Los Angeles has a permanent supply for domestic use and an asset intrinsically worth \$100,000,000 or more, but that 135,000 acres of land is to be irrigated and made wonderfully productive. All this land will be a part of Los Angeles, for the possession of the water will bring all its users under one great municipality.

All the people in this great territory will prosper and their numbers will increase. Los Angeles will continue to grow bigger and richer and its resources will mount to almost unshakable figures. And the coming of Owens River water, celebrated yesterday, will be a mighty factor in the result.

PRaise AQUEDUCT WORK  
(Continued from Third Page.)

desert of Sin a land of fruits and flowers in place of an arid waste. Former Mayor Alexander declared that he had little to do with the building of the aqueduct and stated that in spite of the many enemies who tried to dislodge Mulholland from his position, particularly for political reasons, he believed in their integrity and honesty of intention.

Thomas Carey, one of the political powers of Chicago, who, with George W. Hech, came from that city to be present at the celebration, was asked to describe how the "windy city" had made a river reverse itself and run uphill, but he said that, with Mayor Harrison, he had been afraid that it would be impossible for him to get here and so had sent full power of speaking to Host Boruff, and stated that the latter should deliver the Chicago speech.

Former Gov. Pardee declared that the citizens of Los Angeles, in this work, had done more for conservation than any people on earth today. "You have shown that there are great brains and striking mentality in your own city," he said, "and you have not had to go abroad to seek it. In my own community of Oakland I am going to tell of the things you have done so well—and the things we are trying to do well will be well done if done half as well."

Superior, Pa., representative of San Francisco represented Mayor Rolph, who was unable to be present, and tendered the felicitations of the northern city. "We are not envious of you on this occasion, although we need water, and so far have made no great progress in getting it," he said.

Lorman J. Gage, former Secretary of the Treasury, represented San

Mayor Rose Accepting the aqueduct on behalf of the municipality.

Diego at the luncheon. "This is so wonderful an event," he declared, "that I am afraid many who are interested in it today are not fully appreciating its significance. Aside its military triumphs dwindle into insignificance."

The committee having in charge the reception included John B. Bushnell, chairman; Dr. H. Bart Ellis, Louis J. Mascher, William B. Stewart, Dr. William B. McDonald, Dr. J. Franklyn Cook, Fred Detmer, Dr. W. D. Kirkland, Col. Reese Llewellyn, F. E. Engstrom, George C. Macarty, C. Leonard, C. L. Miller, John H. Lambrook, George H. Kress, Walter G. McCarty and M. C. Adler.

Life's Gentler Side—Society, Music, Song and the Dance—The Theaters.

MOVEMENTS IN SOCIETY.

ANNA HELD AT MAJESTIC.

Count of Luxembourg Next Mason Attraction.

Lulu Glaser Will Be Headline Orpheum Bill.

What's Doing Next Week at Local Theaters.

The "Anna Held All-Star Variete Jubilee," which is coming to Ham-

burger's Majestic theater for a week's engagement, commencing next Monday matinee, (and with special daily matinees) carries the new standard of refined vaudeville into new and brighter heights.

The note of sheer beauty is sustained by the famous Parisienne-American herself—beauty of face, form and action, beauty of adornment and of singing.

Complimentary to the dominant note of beauty which is to prevail in the "variety jubilee," six of the latest and most startling acts of advanced vaudeville have been projected and the scope of the amazing bill ranges from the latest word in acrobatic burlesque, to the most exquisite gem of the d. m. in miniature—George Beban's dramatic play, "The Sign of the Cross."

Distinction is written all over "Anna Held's Variete Jubilee," and the exposition of splendid acting, laugh-making burlesque, acrobatic wizardry, exceptional music, epoch-making dances, superb costumes and startling stage effects, must denote the sincerity and determination of John Cort, under whose management Miss Held appears, to give the American public the best of the world's best in gracious, clean and memorable entertainment.

Mason. With a record of success that has been heralded across two continents, Klav and Erlanger's production of "The Count of Luxembourg" comes to the Mason Opera-house for one week, beginning next Monday evening, for a specially-arranged presentation.

Critics have said that Franz Lehár's music in "The Count of Luxembourg" is the most brilliant achievement of his career. There are twenty musical numbers and every one a triumph.

Tables were arranged for the evening. The special guests present were Mrs. A. Gruber, Mrs. E. C. Brown and Mrs. Charles Colgan, and the club members included Mrs. Eugene Wooddy, Mrs. G. W. Saurer, Mrs. P. W. Brest, Mrs. Frank Neubauer, Mrs. M. M. Walheimer, Mrs. Irving Smith, Mrs. G. C. Johnson, Mrs. J. Baum, Mrs. I. R. Chapman, Mrs. H. H. Clark, Mrs. Ralph Deming and Mrs. C. Satter.

Members of a bridge-luncheon club were entertained by Mrs. Joseph Goldsmith at her home on Twenty-first street, yesterday afternoon. A centerpiece for the luncheon table was formed of yellow chrysanthemums arranged in a glass bowl, the base surrounded by ferns. Place and score cards were indicative of Hal-lorven. Tables were arranged for the afternoon luncheon, and prizes were won by Miss Satter and Colgan.

SOCIETY GAMES  
OUT OF DANGER.City Attorney Sees Nothing  
Wrong in Them.High School Exhibition to  
Draw Many Parents.Commercial Law League May  
Accept Invitation.

PASADENA, Nov. 5.—The new anti-gambling ordinance recently enacted by the City Commission, that becomes effective on the 15th inst., will not interfere with card parties where prizes are offered by the hostess. Such play is held not to be gambling, in an opinion handed to the City Commission yesterday by Deputy City Attorney Howard.

The commissioners, not knowing whether to instruct the Chief of Police to stop all card parties played by Pasadena society women, or not, appealed to the City Attorney's office for instruction. Howard's opinion follows in part:

"It is my opinion that a card party at which the hostess offers a prize to the most successful player does not constitute a violation of the law. The prize rule will be applied when card games are played by members of a club and the prize is paid for out of the club funds and is offered and given by the club as an entity (as distinguished from the individual members thereof actually participating in the contest). It is apparent that the last rule stated offers an opportunity for abuse in that it may be used as a cloak to cover the operation of an unlawful gambling house.

"Broadly speaking, the intent must govern. That is to say, if the affair is a bona-fide social function and the prize merely incidental, no prosecution will lie. If, however, the winning of the prize for its intrinsic value is the main object of play, and the prize offered is the result of contributions directly or indirectly made by the participants, this office will advise the prosecution of those involved.

"The selling of chances or merchandise determined by means of raffles, wheels of fortune, etc., and the operation of slot machines or boards by means of which chances or prizes are determined, constitute a violation of the ordinance. The purpose of the game, whether for profit or charity, cannot be considered in determining its status under the ordinance referred to."

ATTRACTION ATTENTION.  
The evening exhibition session of the Pasadena High School to be held tomorrow night has become a matter of great interest in the city, and extensive plans are being made for it. Harry Geoghegan, president of the High School Parent-Teacher Association, who suggested the plan, has arranged to have special Pacific Electric cars run from the center of the city out to the High School buildings on East Colorado street to accommodate the large crowd which he expects will attend.

Yesterday he also appointed a large reception committee composed of well-known residents of the city. There are about 300 named. They represent the Pasadena Federation of Parent-Teacher Associations, the City Commission, the Board of Trade, the Board of Education, the Tournament of Roses Association and other organizations.

The Board of Trade yesterday afternoon telegraphed a formal invitation to the Commercial Law League of America to hold its 1918 convention here. It is believed by the directors of the Board of Trade that there is a good chance of getting the convention and it would bring many influential persons from all parts of the country to the city.

The board of directors also passed resolutions commending the spirit of the proposed Anglo-American Exposition to be held here next year.

CITY BRIEFS.  
A meeting of the Knights of the Rose Tournament will be held at the Hotel Maryland tonight.

Word was received here yesterday that Mrs. Francis Thomas Anderson Junkin, formerly Mrs. R. T. Crane, widow of the late Chicago millionaire, who passed many winters in Pasadena, will be here this winter. She will stay at the Hotel Raymond. Junkin is general counsel of the Santa Fe Railway and news of the marriage comes as a surprise to many Pasadenians.

Members of the Board of Education are campaigning hard for the \$150,000 bond issue that is to be voted on next Wednesday. Monday.

W. R. Granite spoke last night to the members of the Thomas Jefferson Parent-Teacher Association and in the afternoon to the members of the Grant Parent-Teacher Association.

LARGEST CAR OF WALNUTS.  
Fullerton Sets Record for Biggest Shipment Over Set of Railroad Wheels.

FULLERTON, Nov. 5.—The Benchley Fruit Company shipped in one carload this week 435 sacks of walnuts, worth \$1500. This is believed to be the largest car of walnuts ever shipped out of Southern California. The car was sent to Texas. On the same day the Benchley Fruit Company also shipped a car for the Golden Belt Association, making \$10,000 worth of walnuts moved from this house in one day or about fifteen carloads for the season. Benchley believes that the output from Fullerton this season will be about ninety carloads.

Work has been begun on the new Schumacher business building at 3400 and 3402 Broadway.

An election will be held in Fullerton November 23 to vote bonds of \$13,000 for extra expenses on the water system and on street paving.

Norwelling, who recently sent a number of postal cards East offering to ship walnuts by parcel post in ten-pound packages, has received more than seventy-five orders, some of which call for full sacks.

The walnuts are being sent out by mail in neatly addressed boxes and the prices will net the grower a little more than the prevailing market price. It is believed Norwelling is the first shipper in Southern California to offer to ship walnuts by parcel post.

About month ago a box of tomatoes was shipped from Northern California to Fullerton under a Fullerton label. It is claimed that a reason for the shipment was that the Fullerton Chamber of Commerce has appointed a committee to take the matter up with the United States attorney of Los Angeles with a view of preventing the firm if it is found that the tomatoes have been shipped under a Fullerton label.

If a suit is brought it is said the company will fight it to a finish, holding that no regular shipment has been made from the north under the Fullerton label and that the box or two so labeled were taken from the packing-house without the company's consent and shipped south.

ONLY FOR PLEASURE.  
August Mack, traffic manager of the United States Steel Products Company who has been in the city with his wife visiting a cousin, left last night for his home at Mackay, N. C. The visit to the harbor has caused considerable speculation. He insists, however, that he is simply out West on a pleasure trip and that he has always been interested in harbors.

MAY HELP MISSIONS.  
The will of the late Charles Wilkinson, a victim of local cholera, who died last week, was filed for probate today. The wife of the decedent, already advanced in years, made the will in the probate court, which is valued at \$25,000, but a proviso says that upon her death the estate is to be divided equally between her children.

GOES HIGHEST UP.  
The water users in the Imperial Valley do not believe that it is fair or just for these settlers to get their water without paying for it as the rest of the valley does. It is known, however, that many of the settlers in this section are entirely willing to enter into a contract and pay for their water as the other mutual water companies do, and would do so if it were not for the efforts of Havens and a few of his supporters who believe that they could much better afford to pay the usual water rate of 50 cents per acre-foot in order to insure themselves a permanent water right, and thus enable them to get patents to their lands without further delay or controversy, than to make the water right a permanent one. It is generally understood that the present supply of water as appropriated by the California Development Commission will only be sufficient to supply the lands now embraced in the regularly-constituted mutual water company districts, and that there will be no surplus after supplying the lands that will be brought into cultivation under the East Side High Line Canal in District 1 and the new district known as No. 1.

Undoubtedly the failure of the so-called north end and north side contract with the California Development Company as all the other districts in the Imperial Valley, has been responsible for the slow development in that part of the valley. With an assured permanent water supply, the Imperial Valley districts would share in the general rapidly-advancing prosperity now enjoyed throughout this country.

HAVING A LOOK  
AT SUBMARINE.GOVERNMENT OFFICIALS TAKE  
TRIP UNDER WAVES.

Technicalities investigated in Detail for Report to Navy Department—Two Bids for Sewer Bonds Taken Under Advice—Lease for New Pleasure Pier Granted.

LONG BEACH, Nov. 5.—Capt. Charles Pond, Supervisor and commandant of the Twelfth naval district, which extends from Bremerton to San Diego; Henry M. Gleason, a naval constructor from Mare Island; and Lieut. Charles Smith of the United States submarine P-4, passed the day in the city in an examination of the Cape submarine, the craft which it is believed by its inventor will revolutionize submarine construction and which has already undergone severe tests both above and below water.

The visitors are here as an official board representing the Navy Department. Their investigations began this morning with an extended examination into the technicalities of the craft at the company's offices and included scores of questions asked the inventor of the recently-voted submarine. The board was also given a complete prospectus of the craft for reference.

This afternoon the board paid a visit to the working model now moored in the inner harbor. The model, recently overhauled and painted, was favorably commented on and a statement was frankly made by Capt. Pond that he regarded the submarine as a machine of the future.

The board was also given a complete prospectus of the craft for reference.

"PRAYERS DID IT,"  
ADMITS MAYOR.

SANTA MONICA, Nov. 5.—The prayers of Postmaster Stilson of the Ocean Park office elected Lewis H. Pounds, Mayor of Brooklyn Borough in New York yesterday.

Pounds admitted himself. A few days ago, Stilson, who is a brother-in-law of Pounds, wired him expressing the hope that he would be elected, and stating that the prayers of the postmaster went up daily for him.

This morning Stilson received the following telegram from Pounds:

"Elected by 40,000. Great city victory. Your prayers did it."

"Pounds."

tail, or what remains, shall become the property of the missionary board of the Methodist Episcopal church, whose headquarters are in New York City.

TAIL-END COLLISION.  
Left-Hand Drive Saves Life of Autoist for Right Side of Machine Is Smashed.

WHITTIER, Nov. 4.—E. S. Cadwell struck last night, the rear end of a hay wagon, and was traveling without tail lights, on the Whittier road, west of Montebello. Cadwell was coming east from Los Angeles, and was so blinded by the lights of a machine going west that he could not see the dark wagon ahead.

His machine, a left-hand drive, which probably saved his life, as the right side of the machine was completely wrecked, though he escaped with minor injuries. The team hitched to the wagon fled in terror when the collision occurred, and the wagon was also wrecked.

The topic of the day for the Women's Club, tomorrow, "Home and Decoration," and is in charge of Mrs. Edith Ingersoll, of the art department.

In addition to the features of the programme belonging to the day's topic a musical programme has been prepared. The artists are Miss Rita Riser Heath, a vocalist of more than local reputation, and Fred G. Ellis, of the Whittier Choral Society.

Leonard Smith will give a recital tomorrow on the pipe organ of the Plymouth church, and is determined to give the best of his ability.

Although the church is a musical entertainment, and to give the local public an opportunity to hear the double bass, which is a new instrument, the Whittier Choral Society.

Following out the new plan provided the Legislature for county teachers' institutes, County Superintendent J. G. Gilmore has announced an institute for Whittier, on November 13.

The institute will be in charge of Mrs. E. S. Cadwell, and will be held at the Whittier Union High School.

The institute will be held in the High School auditorium. The Whittier center will include all schools in the Whittier Union High School district.

COUNTED OUT  
AT THE BEACH.Women Hold the Balance of  
Power in Election.Both Ordinances Lost to Box-  
ing Contingent.Frighten Clerks by Threat of  
Eight-hour Law.

VENICE, Nov. 5.—Opponents of boxing triumphed in the initiative election held here today. The vote for the ordinance abolishing boxing contests and training quarters for pugilists was 545, while the devotees of the sport polled 415 votes against it.

For the alternative ordinance, which would have permitted four-round contests with eight-ounce gloves, the vote stood 478 for and 519 against.

Women of Venice, disapproving of the manner in which the initiative election was conducted, carried the election for the anti-boxing ordinance. Although merchants and opponents of the sport pugilists.

About 40 per cent. of the vote today was by women who, in many cases, persuaded their husbands and brothers to vote boxing in their way.

The great strength of the anti-boxing contingent was on the "dirt" that is in the country back of the canal district. Here the vote against the sport was four to one.

In the Windsor district, the vote was about even.

There were at least 100 women at the polls today. At each polling place a knot of a dozen, at times, passed out literature, and women on foot with the men in automobiles in getting their friends to the polls.

A rumor was started this morning that the local attorney would contest the election on the ground that the women clerks on the election board, of which there were at least a dozen, were violating the eight-hour law by receiving money for their duties. This threw the anti-boxing contingent into confusion.

Women were quoted showing that women on election boards did not come within the eight-hour law's provisions.

Those favoring boxing were loath to come out openly and work on election day. Although the count was really along in the management of the campaign to defeat the anti-boxing ordinance, the count was really along in the management of the campaign to defeat the anti-boxing ordinance.

Not only did Corona have a mad campaign leading from that city, northerly, the count was really along in the management of the campaign to defeat the anti-boxing ordinance.

The effect of this election will be to bar all boxers from training here and will give Corona a monopoly on the beach. The Whittier center will include all schools in the Whittier Union High School district.
